- Students can select any section of the same cluster
- The Students must verify each course while registering and ensure that, according to the LTPS, the Students must select all components of each course
- All components should be in the same section, and all sections should belong to the same cluster.
- For example, if the course is 'Object-oriented programming' with an LTPS of 3-0-2-2, it has L, P, and S components. If the Student selects S1 (Cluster 1) for the L component, they must also select the P and S components in section S1. This should be done for all courses within the same cluster."

Dont's:

- Do not share your **ERP credentials** with anyone
- Do not do the **registration yourselves** without the Mentors' Guidance
- Do not **delay** your registrations
- Do not **miss any courses during the registration**
- Do not do any **cross-cluster** registrations
